Attachments: CDC_Youtube_Misinformationv2.pptx

Hi, All –

Many thanks, again, for the time together yesterday. This is such important shared work we are doing in the mis/dis information space, and we deeply appreciate your contributions. Please find attached the slide deck referenced during the meeting, and we ask that you treat it close hold and not for further distribution. We are looking forward to our future collaboration efforts!

Take care,
Kate

Kate Galatas, MPH
Deputy Communications Director
Centers for Disease Control and Prevention

COVID Vaccine Misinformation: Issue Overview

YouTube

Misinformation Topics

- These topics were selected due to high volume, continued public discussion, and high-profile coverage.
- Issues included in this presentation are infertility, misinformation about side effects, and claims of vaccines leading to deaths.

DEATH - THIS INFORMATION IS NOT FOR FURTHER DISTRIBUTION

Discussion of Topics

Centers for Disease
Control and Prevention
Office of the Director

DEATH - THIS INFORMATION IS NOT FOR FURTHER DISTRIBUTION

Background Information: Vaccine Infertility Claims

- Common claims about the COVID vaccine's side effects include that it causes infertility in women and men, miscarriages, and stillbirth.
- In early December, a former Pfizer employee and researcher petitioned the European Medical Association to stop trials of the Pfizer vaccine, citing fears of infertility.
 - These claims were escalated and amplified on blogs and social media.
- According [to CDC](#) there is no evidence that fertility problems are a side effect of any vaccine, including COVID-19 vaccines.
 - CDC also established the [v-safe COVID-19 Vaccine Pregnancy Registry](#) in multiple languages to gather more data.

Examples of Infertility Claims: YouTube

[Video](#)

DEACT - THIS INFORMATION IS NOT FOR FURTHER DISTRIBUTION

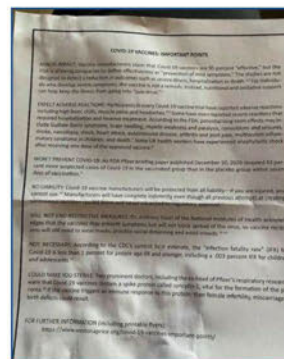

Additional Examples of Infertility Claims

"Vaccine mRNA causes neurodegenerative disorders and infertility for life." (February 28, 2021)

"So you can have a vaccinated man, sleep with an unvaccinated woman...and she will become INFERTILE." (March 2, 2021)

"COULD MAKE YOU STERILE" (February 25, 2021)

DEATH - THIS INFORMATION IS NOT FOR FURTHER DISTRIBUTION

Background Information: Side Effects

- Speculation and misinformation about side effects caused after taking the COVID vaccine have been prevalent on social media since the first vaccines were approved.
- Common claims include that side effects are unknown, the side effects of the vaccine are more severe than the virus itself, and unsubstantiated links to new side effects.
- [According to CDC](#), common side effects include pain or swelling at the injection site and fever, chills, tiredness, or headache.
 - Anaphylaxis after COVID-19 vaccination is rare. If this occurs, vaccination providers can effectively and immediately treat the reaction.
 - The [Vaccine Adverse Event Reporting System \(VAERS\)](#) is a national vaccine safety surveillance program run by CDC and FDA but can be a source of misinformation if taken out of context.

DEATH - THIS INFORMATION IS NOT FOR FURTHER DISTRIBUTION

Side Effects Example: YouTube

Video: "Again, they say that this does not mean it is caused by the person administering or the vaccine itself, but still you can see that there is a lot of dots we can connect with it."

DEATH - THIS INFORMATION IS NOT FOR FURTHER DISTRIBUTION

Additional Side Effects Examples

You are more likely to suffer side effects from the vaccine than you are to get Covid.
(Awaits the hate)

Post published February 23,
2021

"more and more poisoning of your health and brain causing more autoimmune issues, infertility, neurological damage including LOWERED IQ"
(February 28, 2021)

This isn't a side effect! This is a direct effect. Things that are good for you, don't cause your body to react this way. EVER.

9News Gold Coast
@9NewsGoldCoast

#BREAKING: 9News understands a health worker has had an anaphylactic reaction to the Pfizer #COVID19 vaccine at #GoldCoast University Hospital.

The person is reportedly in intensive care.

More to come.

"You can't take untested, unnecessary, rushed to market deadly and dangerous drugs and not expect to suffer consequences. "

Control and Prevention
Office of the Director

DRAFT - THIS INFORMATION IS NOT FOR FURTHER DISTRIBUTION

Background Information: Death from Vaccines

- Vaccine-hesitant groups spreading misinformation and conspiracy theories about alleged vaccine-related deaths erode trust in the COVID-19 vaccine and the public health system.
- Reliance on anonymous, unverified, and conspiracy-based claims that remain unproven or are demonstrably untrue, to spread speculation and misinformation about deaths resulting from the vaccine.
- [According](#) to CDC, VAERS has not detected patterns in cause of death that would indicate a safety problem with COVID-19 vaccines.

DEATH - THIS INFORMATION IS NOT FOR FURTHER DISTRIBUTION

Death from Vaccines Example: YouTube

Removed Video: "If everyone gets the vaccination, that would be over 100,000 deaths [from the vaccine]."

Centers for Disease
Control and Prevention
Office of the Director

DEATH - THIS INFORMATION IS NOT FOR FURTHER DISTRIBUTION

Additional Death from Vaccines Examples

"All of these people are fine before the vaccine then dying after they receive the vaccine shot" (February 20, 2021)

March 7, 2021

"Died a month after getting the vaccine. Obviously from Covid. Not the vaccine...." (February 25, 2021)
